For the Workshop:

Convoy of Martyrs

Stand up ... and Embark with us

**All praise is due to Allah, peace and blessings be on the
Most Honored of all Messengers, upon his household and
all his companions.**

To Proceed;

**The goal of this workshop is to communicate with lovers
of Martyrdom operations and the brothers who seek to
carry out an operation that causes great slaughter amongst
the enemies of Islam. Those who can't reach the
Mujahideen or communicate with them because of various
reasons. The goal now is to activate those brothers once
they are on the enemies land and amongst them. Whether
was this enemy a Jew or Christian or apostate. its clear that
the individual Jihad or what is called (lone wolf)became
more common with obvious features . and that is what the**

Jihad leaders were calling for . In a nutshell, it's a full Jihadist operation carried out by one single brother. For more information regarding the concept of the individual Jihad you can watch the Video release (you are not tasked except for yourself)that was released by Assahab Jihadist institution .

The Jihadist Operations normally require going through three phases:

- Selection of the target and gathering information about it

- Preparing for the operation

Execution of the operation

We can notice from the chart that there is no link between the three groups , as the the connection between the three groups is carried out from the leadership where every group is self dependent .this means that if one of the groups was discovered that wont effect the other groups .because the enemy applies ways of interrogation that no

human can bear except those whom Allah has mercy upon to be steadfast – . Planning a jihadist operation is based on this method (independent groups) to prevent information leak. Once a member of the group is discovered or confessed, normally a chain of information about the operation is displayed.

But when gathering information, planning the operation and the execution is done by one person then the chances of discovering the operation by the enemy is very weak. For, the one who controls all the information is one person only. Therefore, this individual is the only one who gathers information, prepares for it and holds the responsibility to execute it by him.

The only connection that that Mujahid will have is the leadership only , in this case it will be the military committee . the other factors like , instructing , choosing target , learning , training and adopting with the operation will be through out military committee and leadership . this committee will be also responsible for the media coverage of this Jihadist operation .
